To Observe Golden Wedding

MR. AND MRS. FRANK FREEHAUF.

MARRIED FIFTY YEARS; COUPLE WILL CELEBRATE

Golden Wedding Date of Mr. and Mrs. Frank Freehauf, Woodland, Is Saturday.

Mr. and Mrs. Frank Freehauf, residing eight and a half miles south of Mishawaka, on Lincoln highway, will observe the 50th anniversary of their wedding Saturday next, and have made elaborate preparations for the event.

Mr. Freehauf was born in Saxony, Germany, Aug. 28, 1836, and came to the United States in 1869, landing in Detroit. His wife was born in Macaburg, Germany, Nov. 12, 1850, and came to this country in 1870. Her maiden name was Marie Seemom. The couple were married July 30, 1871, at Detroit, by the Rev. Mr. Gempka. They came from Michigan to Mishawaka in 1873 where they resided for two years, afterward settling in Woodland where they have been most active workers in the community, and especially in the German Lutheran church.

Eleven children blessed the union, eight of whom are living, as well as 20 grandchildren. Mr. and Mrs. Freehauf are among the most highly respected citizens of the countryside in which they reside, and have been in their present home for the long period of 48 years. Both are enjoying perfect health and on the occasion of their golden wedding anniversary are receiving the congratulations of a host of friends.

CRUDE OIL PRICES RETURN TO PRE-WAR BASIS DURING JUNE

Mexican Tax and Falling Off of Export Trade Assigned as Causes of Drop.

CHICAGO, Ill., July 28.—During the last month prices of petroleum and all its products fell rapidly. The refinery price of gasoline, according to the Petroleum Magazine of this city, is so low notwithstanding the low price of crude as to cause great loss to the refiners. Similarly as to lubricating oils—prices are down to 1913 levels.

In the last few weeks the drop in the tank wagon prices in the Standard Oil of Indiana territory has had no noticeable effect on the market because of the fact that the wholesale price in gasoline anticipated the drop. Just how long low prices of gasoline are to stay is dependent on the recovery of the export market. The domestic market is gradually increasing in consumption to a normal point insofar as gasoline is concerned. For products such as kerosene, engine oils and fuel oils the demand is far below normal owing to few industries in operation.

Operators in Europe. In Europe are many executives of various large oil companies endeavoring to establish trade relations by devising credits. A. C. Bedford, of the Standard Oil of New Jersey, Van Dyke, of the American Refining Company; Deheny, of the Mexican Petroleum Company, and Minor Meriwether, of the Midco Petroleum company, are among the large operators in Europe.

There has been a noticeable decrease in the production of crude in this country and Mexico. The price of Mexican crude has been rapidly declining to a point which makes its production unprofitable and places the Mexican producer in a position similar to that of the United States producer.

The new Mexican export tax will curtail production until negotiations with the Mexican government result in compromise.

New Wells Active. The rumor of encroachment of salt water in the production areas of Mexico is denied by most of the large producers, who advise that it is only a few of the small oil pools that are affected. New pools are showing as great a potential productivity as the oil fields.

GERMANS GAIN IN TRADE WITH SOUTH AMERICAN POWERS

Urge Hoover to Investigate Jeopardizing of American Prospects.

BUENOS AIRES, July 28.—Germany is winning the race for South American trade.

The customs house and surrounding yards here were stacked today with American made goods valued at from \$40,000,000 to \$60,000,000. Meanwhile, three German ships, which arrived here with almost identical goods, discharged their cargoes, saw them sold and cleared for Germany and more cargoes.

The German goods sold at one half the price of the American prod-

uct, because of the high cost of the United States dollar.

The situation emphasized the jeopardy of American prospects here which led the United States chamber of commerce in Buenos Aires to urgently invite Secy. Herbert Hoover here for a personal investigation.

While the most successful competition comes from the Germans who benefit by the abnormal rates of exchange, English and Belgium goods are sold here while American made products lie useless, some of them rotting in storage.

At one time, 1,200 American automobiles lay in storage while European makes were snapped up eagerly.
